Transportes Vernazza

*"Our company and its trajectory"
80th anniversary*

Vernazza has a great trajectory as an Argentine company that operates uninterruptedly since 1942, offering inland cargo transport services. Highly specialized in extra-heavy and / or oversized movements and in industrial assemblies, it also provides the services of loading and unloading of the transported bulks, guaranteeing an integral solution.

Today, 80 years after its foundation, **Vernazza** holds a privileged position in the market, due to the successful projects throughout its rich history and the genuine quality of its services.

Mission: "The security of the best service"

Our mission is to provide our customers with the most reliable, efficient and safe special loads transport. We also carry out industrial assemblies, conventional cargo transportation and dangerous, lifting and warehousing services in the firm's warehouses. Our services operate with various industries: construction, chemical, petrochemical, mining, oil and energy, offering integral solutions in the execution of large projects, with decades of experience of our professional team combined with the latest technology.

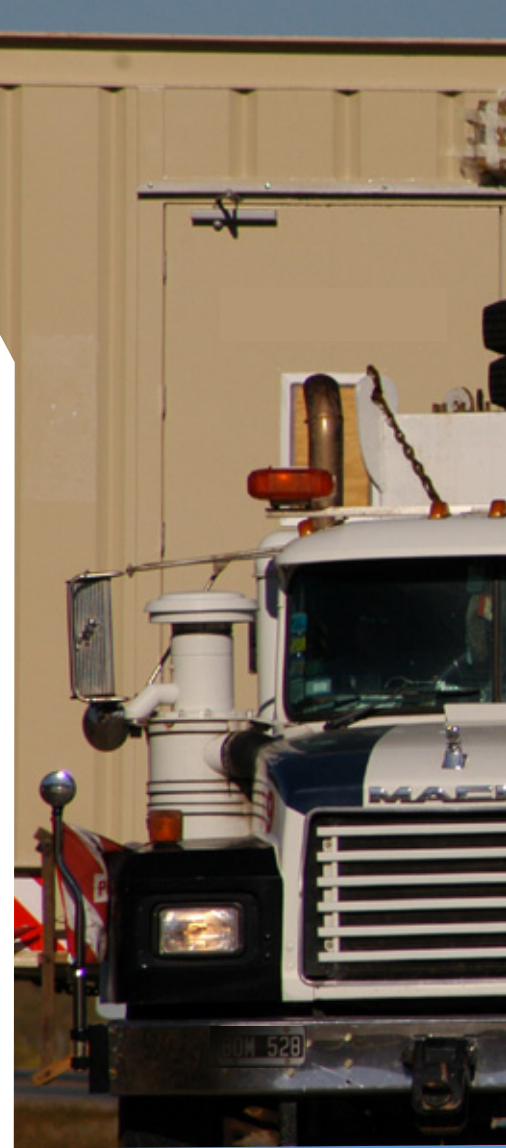

We strive every day for our response to arrive in time and form where the Client needs it, assuming a compromise of security and efficiency.

"The security of the best service" sums up our reason for being.

Vision

Consolidate our position as a leading company in the automotive transport market of special loads, growing steadily and consolidating our position of leadership and benchmark company in the Mercosur area.

Vernazza has a wide regional coverage, in addition to offering its services throughout the Argentine Republic, it also does so in neighbouring countries such as Uruguay, Bolivia, Brazil and Chile. Understanding that the services offered should contemplate the geographical features of each region (high mountains, long deserts, wide rivers and even large cities), every requirement is analyzed by specialists in an exclusive and meticulous manner to offering the most appropriate and safe solution.

Vernazza is a company certified under the ISO 9001, ISO 45001 and ISO 39001 standards, generating and offering services under controlled conditions, which are adjusted to the care of the environment and safe labour development.

80 years of experience
Vernazza has a place of privilege in the market, due to the successful projects made throughout its rich history.

100% Customer Satisfaction
It is our permanent challenge.

Our premises
Quality, safety, professionalism, honesty, technological innovation and care of the environment.

Commitment

Vernazza maintains a strong commitment to quality, seeking to meet the needs, requirements and expectations of its customers and users.

The habit of permanent training, teamwork, participation, honesty and creativity for improvement, lead to personal and professional growth and, therefore, also business growth.

As regards the international freight transport community, Vernazza is a member of "Specialized Carriers & Rigging Association (SC & RA)- USA", participating in meetings and conferences around the world.

At the local level, it is a member of the "Cámara de Empresarios del Autotransporte de Cargas (CEAC)", associated with "Federación Argentina de Entidades Empresarias del Autotransporte de Cargas - (FADEEAC)".

Technology and Equipment

Vernazza owns state-of-the-art equipment of the highest technology available on the market. The COMETTO beam, unique in its kind throughout Latin America, has a capacity of up to 600 tons for the transportation of indivisible bulks and it is certified by TÜV Italy, member of TÜV Bayern.

In addition, Vernazza has the following equipment:

- ▶ Beam system for indivisible heavy-duty transport with a capacity of 300 tons.;
- ▶ COMETTO and GOLDHOFER hydraulic modular heavy-duty trailers, model MX and MX1;
- ▶ Mechanical, hydraulic and railway heavy-duty trailers as well as conventional semitrailers, extensible and sliders;
- ▶ Tractors ASTRA and MACK, with enormous traction power and low environmental pollution;
- ▶ Tractors SCANIA, IVECO, FORD, VOLSKWAGEN and OSHKOSH;
- ▶ Cranes of different sizes and support vehicles

Service Scope

Vernazza carries out the necessary coordination and contracting with the authorities in order to obtain licenses and permits to cross both national and provincial routes, as well as the streets and avenues of the different municipal districts. It should be noted that such activities include, when load sizes warrant it, coordination with different suppliers and control agencies in order to remove cable runs, assemble and dismantle signs and pedestrian walkways according to the previous route survey.

Vernazza informs its customers about the transit of their goods through a centralized base of operations with permanent connection between the totality of the vehicles that compose the fleet.

Vernazza is the most effective, safe and realistic solution for land cargo movements.

Special Transportation

Efficiency and Safety in Transport

- We have expandable conventional trailers for large bulks, mechanical and pneumatic heavy-duty trailers of highly resistance, and hydraulic modular heavy-duty trailers combinable with up to **480 tires**, being able to transport very heavy and very large bulks (up to 1500 tons).
- Vernazza has the highest ton capacity beam in the whole country, with a capacity of 600 tons. Such beam was constructed at Vernazza's requirement in Italy by Industries Cometto, and was certified by TÜV Italy later on.

Industrial Liftings and Movements

Safe & Trustworthy Movements

- Vernazza always offers the best solutions in the engineering field. For many years, we have showed our outstanding ability in the handling of special cargoes.
- Making use of cranes, hydraulic jacks, slider rollers, hoisting machines and other pieces of equipment, in addition to the highly trained and experienced personnel we have, we can successfully solve any lifting, handling and positioning needs and any industrial type assembly in general. Our customers check it every day for several decades.

Storage

- Vernazza has a huge number of warehouses situated in the City of Buenos Aires at only twenty minutes drive from the City town, and at ten minutes drive from Buenos Aires Port. It has an available area for storage of 15.000 mt², 10.000 mt² of them are under shelter. We work with goods in pallets and in bulks. Our large sites also let us store oversized containers and bulks.
- Our warehouses are particularly profitable when it comes to transport of special type. In the event of any unforeseen event, we offer our customers a place of protection for their merchandise, with an important network of permanent custody, 24 hours a day, 365 days a year.

General Cargoes

A Solution to every requirement

- Vernazza has modern trucks with simple traction, wich are excellent or conventional cargoes. We have conventional trailers, flats and sliders, among other pieces of equipment, usefull for the transportation of different types of containers, such as high cube, riffer, open top, flat rack. and conventional containers.

- Our driving staff possess the National License for transport general and dangerous cargoes and is part of an important annual Training Plan, which includes technical aspects of driving, as well as road, occupational and personal safety issues. This is our commitment and our contribution to the improvement of the activity: Vernazza continually strives for the professionalization of the automotive transport of cargo.

“The Security of the Best Service”

At **Vernazza** we possess all the knowledge and equipment necessary to guarantee our client a safe and reliable transportation service. Our company distinguishes itself by providing the security of the best service.

Vernazza is the Argentine company which guarantees full security in the transport of cargo since 1942.
